Surprise and delight your customers

Grow your own tree!

A durable and educational product in a DIY package including bamboo stick, nutrition tablet, bag with compost binding material and birth certificate. With a little care and love, the tree can grow into a well-producing fruit tree. The graft is not a mature tree but a 'Baby Tree'. A baby tree can be planted in the garden, in a pot and is also suitable for balcony.

There is a choice of 5 types of fruit with each own personal character

- Tobias the Apple tree
- Barry the Blueberry plant
- Nova the Cherry tree
- Sophia the Pear tree
- Hugo the Plum tree

Please ask for the options; it's our job to give you the best advise on the most suitable way to customize the box or the tree according to your corporate identity.
